"Dark chocolate gift box under $40, no milk, arrives by Friday"
search(concepts: dark-chocolate-food, gift-set, gates: price<=40, deliver_by=Fri)
handle + items with typed claims, provenance, promoted_by, ranking basis
explain(handle, top ids)
per-item evidence: contains milk = false (manufacturer label) / unknown
keep only items whose label says no milk
availability(handle, chosen ids)
read price, stock and delivery promise
current values, with validity
price and delivery promise from the systems of record, with validity
"Two options. Neither contains milk per the manufacturer's label. One is promoted by the merchant. Three others were excluded because their milk content is unknown."
"The second one"
